2014-2020 Road-éo Chair  
2018-2019 President Elect  
2016-2018 Historian

## PRESIDENT'S MESSAGE

This chapter of the Texas Association for Pupil Transportation (TAPT) has a longstanding inextricable connection to all the districts within the Region 10 area. We have been a proud member of TAPT and have mirrored their bylaws so to help acclimate new district members to the organization. NTAPT tries to foster good leaders through monthly gathering and proper networking. We have an awesome support system of vendors who become members to do far more than promote their businesses but to actively involve themselves with the care of the transportation of students throughout the state of Texas.

Our Regional School Bus Road-éo event is partnered and inclusive of the Region 11 Chapter and their indigenous districts where we rotate in between the regions to host the event. In 2019 the School Bus Road-éo was hosted in Grapevine-Colleyville ISD of Region 11. Prior to that, and this coming year's Road-éo will be held in Plano ISD of Region 10. Next year in 2021, it will be hosted by HEB ISD in Region 11. Mesquite ISD, Region 10, will host the Regional School Bus Road-éo in 2022. For the past several years, our winners have reached championships from the state level to national (BTW- Congratulations to Delene Lewis of Allen ISD who won 3<sup>rd</sup> place in National School Bus Safety Competition in July 2019!)

Our mission is to provide good networking opportunities and fellowship through promoting growth in our membership while providing updated important information related to student transportation and the service we provide to our communities. Our model this year is the old slogan of our late and former school bus transportation district having over 40 years of membership, DCS:

**"Strengthening Education Through Service!"**

-Raymond E. Forsberg, Sr.
